

Health Care Pricing Transparency North Carolina Hospital Report Card

In June 2021, Attorney General Josh Stein wrote to all North Carolina hospitals and asked for information verifying that they were in compliance with federal CMS price transparency regulations for patients. These price transparency measures better provide patients with the information they need to make informed choices about their health care. The regulations require that hospitals provide a publicly-available machine-readable list of services and prices and a consumer-friendly shoppable list of services. The below is a summary of the compliance data received from hospitals.

This data is current to information shared with the Attorney General's Office as of Jan. 13, 2022. The Attorney General's Office's review is an ongoing process. Some hospitals have communicated to the Attorney General that they are still in the process of updating their tools to comply with the regulations. These hospitals may be listed as 'Not Compliant' despite their ongoing cooperation with our efforts. The information contained in this release and its attachments reflects the status as it stands today.

Attorney General

Josh Stein

Federal Hospital Price Transparency Compliance in North Carolina

Below is a list of hospitals organized based on their compliance with the Federal Hospital Price Transparency Regulations, 45 C.F.R. §§ 180.50, *et seq.*
