**Re: NOTICE from the Anti-Robocall Multistate Litigation Task Force Concerning Lexico Telecom LTD / Lextel LTD's Failures to Comply with the FCC's Requirements Regarding the Robocall Mitigation Database and/or Traceback Participation**

To Whom It May Concern:

The Anti-Robocall Multistate Litigation Task Force ("Task Force")<sup>1</sup> has been made aware that Lexico Telecom LTD / Lextel LTD ("Lexico") is transmitting calls on or to the U.S. telephone network while failing to comply with certain mandates from the Federal Communications Commission ("FCC"). These mandates require all voice service providers to: (1) file a certification and robocall mitigation plan—which plan must describe with particularity the provider's specific mitigation practices addressing how it avoids originating, carrying, and/or processing illegal robocall traffic—in the FCC's Robocall Mitigation Database ("RMD")<sup>2</sup>; (2) refuse to accept call traffic from any voice service provider—whether foreign or domestic—that is not registered in the RMD<sup>3</sup>; and (3) respond to traceback requests within 24 hours of receiving such requests.<sup>4</sup>

---

<sup>1</sup> The Anti-Robocall Multistate Litigation Task Force is a 51-member bipartisan collective of State Attorneys General, led by the Attorneys General of Indiana, North Carolina, and Ohio, which is focused on actively investigating and pursuing enforcement actions against various entities in the robocall ecosystem that are identified as being responsible for significant volumes of illegal and fraudulent robocall traffic routed into and across the country.

<sup>2</sup> See *Call Authentication Trust Anchor*, WC Docket No. 17-97, Sixth Report and Order and Further Notice of Proposed Rulemaking, FCC 23-18, at 16 ¶28 to 29 ¶52 (Mar. 17, 2023) (hereinafter "RMD R&O"), available at <https://docs.fcc.gov/public/attachments/FCC-23-18A1.pdf>; 47 C.F.R. § 64.6305(d)–(f).

<sup>3</sup> See *RMD R&O* at 31 ¶58; 47 C.F.R. § 64.6305(g); see also *Call Authentication Trust Anchor*, WC Docket No. 17-97, Second Report and Order, FCC 20-136, at 48 ¶90, 49 ¶93 (Oct. 1, 2020) (hereinafter "Second Caller ID Authentication Order"), available at <https://docs.fcc.gov/public/attachments/FCC-20-136A1.pdf>.

<sup>4</sup> See *Advanced Methods to Target and Eliminate Unlawful Robocalls*, CG Docket No. 17-59; *Call*

This Notice is intended to apprise you of the Task Force’s concerns regarding Lexico’s lack of compliance with some or all of these FCC mandates, and to request a response as to why Lexico is disregarding its obligations to demonstrate its commitment to mitigate the origination and/or transmission of illegal and/or suspicious robocalls on or through its network.

### **Task Force’s Findings and Concerns Regarding Lexico**

As Lexico should well know, originating and/or transmitting illegal robocalls are violations of the Telemarketing Sales Rule (“the TSR”),<sup>5</sup> the Telephone Consumer Protection Act (“the TCPA”),<sup>6</sup> and/or the Truth in Caller ID Act,<sup>7</sup> as well as state consumer protection statutes. State Attorneys General are authorized to bring enforcement actions under these federal statutes and rules.<sup>8</sup> State Attorneys General are also empowered to enforce their respective state laws

---

*Authentication Trust Anchor*, WC Docket No. 17-97; Seventh Report and Order in CG 17-59 and WC 17-97, Eighth Further Notice of Proposed Rulemaking in CG 17-59, and Third Notice of Inquiry in CG 17-59, FCC 23-37, at 9 ¶21 to 11 ¶28 (May 19, 2023) (hereinafter “*All Provider 24-Hour Traceback R&O*”), available at <https://docs.fcc.gov/public/attachments/FCC-23-37A1.pdf>; *Advanced Methods to Target and Eliminate Unlawful Robocalls*, CG Docket No. 17-59; *Call Authentication Trust Anchor*, WC Docket No. 17-97; Sixth Report and Order in CG 17-59, Fifth Report and Order in WC 17-97, Order on Reconsideration in WC 17-97, Seventh Further Notice of Proposed Rulemaking in CG 17-59, and Fifth Further Notice of Proposed Rulemaking in WC 17-97, FCC 22-37, at 30 ¶65 to 32 ¶70 (May 20, 2022) (hereinafter “*Gateway RMD–Traceback R&O*”), available at <https://docs.fcc.gov/public/attachments/FCC-22-37A1.pdf>; 47 C.F.R. § 64.6305(a)(2), (b)(2), and (c)(2); 47 C.F.R. § 64.6305(d)(2)(iii), (e)(2)(iii), and (f)(2)(iii).

<sup>5</sup> 15 U.S.C. §§ 6101–6108; 16 C.F.R. §§ 310.3, 310.4. It is a violation of the Federal Trade Commission’s TSR for voice service providers to provide substantial assistance to customers that the provider “knows or consciously avoids knowing” are engaged in practices that violate TSR provisions against deceptive and abusive telemarketing acts or practices. 16 C.F.R. § 310.3(b).

<sup>6</sup> 47 U.S.C. § 227; 47 C.F.R. §§ 64.1200, 64.1604. Under the TCPA, the Federal Communications Commission promulgated rules restricting calls made with automated telephone dialing systems, calls delivering artificial or prerecorded voice messages, 47 U.S.C. § 227(b)(1)(A)(iii), (b)(1)(B); 47 C.F.R. § 64.1200(a)(1)–(3), and generally prohibiting solicitation calls placed to numbers on the National Do Not Call Registry. 47 U.S.C. § 227(c); 47 C.F.R. § 64.1200(c)(2). The TCPA also restricts all artificial or prerecorded voice messages that fail to disclose the identity and telephone number of the caller responsible for initiating the call and that fail to provide an automated opt-out mechanism in advertising or telemarketing messages. 47 U.S.C. § 227(d)(3) and 47 C.F.R. § 64.1200(b).

<sup>7</sup> 47 U.S.C. § 227(e); 47 C.F.R. § 64.1604. Under the federal Truth in Caller ID Act, it is generally unlawful for a person to “knowingly transmit misleading or inaccurate caller identification information with the intent to defraud, cause harm, or wrongfully obtain anything of value.” 47 U.S.C. § 227(e); 47 C.F.R. § 64.1604.

<sup>8</sup> State Attorneys General have concurrent authority with the Federal Trade Commission to sue to obtain damages, restitution, or other compensation on behalf of their citizens for violations of the

regulating various aspects of the initiation and transmission of illegal robocall and telemarketing call traffic across the U.S. telephone network.

Further, all voice service providers—whether foreign or domestic—are required to file a certification and robocall mitigation plan in the FCC’s RMD in order to “ensure that every provider in the call chain is covered by the same basic set of rules . . . [to] increase transparency and accountability,”<sup>9</sup> to facilitate enforcement efforts,<sup>10</sup> and “because it has become increasingly clear that provider due diligence and the use of call analytics are key ways to stop illegal robocalls.”<sup>11</sup> All voice service providers must also refuse call traffic sent by a non-gateway intermediate provider that is not registered in the RMD.<sup>12</sup>

Additionally, all providers in the call path are required to respond to tracebacks, generally within 24 hours of receiving such requests,<sup>13</sup> because “[r]apid traceback is essential to identifying both callers placing illegal calls and the voice service providers that facilitate them[,]”<sup>14</sup> and because “voice service providers do not retain call detail records for a consistent period of time, so the traceback process must finish before any voice service providers in the call path seeking to shield bad actors dispose of their records.”<sup>15</sup>

The Task Force’s review of the FCC’s RMD, as well as call traffic information from industry sources, including USTelecom’s Industry Traceback Group (“ITG”),<sup>16</sup> shows that

---

TSR. 15 U.S.C. § 6103; 16 C.F.R. § 310.7. State Attorneys General are authorized to bring enforcement actions to enjoin violative calls and recover substantial civil penalties for *each violation* of the TCPA. 47 U.S.C. § 227(g)(1). State Attorneys General have the authority to bring enforcement actions for violations of the Truth in Caller ID Act and its prohibition against illegal caller identification spoofing, 47 U.S.C. § 227(e)(6), which violative conduct can lead to assessments of civil penalties of up to \$10,000 for each violation or three times that amount for each day of continuing violations, and which penalties are assessed in addition to those for any other penalties provided for by the TCPA. 47 U.S.C. § 227(e)(5)(A), (e)(6)(A).

<sup>9</sup> See *RMD R&O* at 21 ¶38; 47 C.F.R. § 64.6305(d)–(f), (g)(2); see also *Second Caller ID Authentication Order* at 49 ¶93 (instructing that “foreign voice service providers that use U.S. telephone numbers to send voice traffic to U.S. subscribers must file the same certification as U.S. voice service providers in order to be listed in the database”).

<sup>10</sup> See *RMD R&O* at 21 ¶38.

<sup>11</sup> See *id.* at 23 ¶41.

<sup>12</sup> See *id.* at 31 ¶58; 47 C.F.R. § 64.6305(g)(4).

<sup>14</sup> See *All Provider 24-Hour Traceback R&O* at 9 ¶22.

<sup>15</sup> See *id.*

<sup>16</sup> Established in 2015, the ITG is a private collaborative industry group—composed of providers across wireline, wireless, VOIP, and cable services—that traces and identifies the sources of

Lexico is failing in its obligations to comply with one or more of these federal mandates. For your reference, some of the Task Force’s findings are included below.

**Lexico has a Missing/Deficient RMD Filing:** Lexico has failed to file either a certification or robocall mitigation plan in the FCC’s RMD, in contravention of the FCC’s mandate that all voice service providers, whether foreign or domestic, do so.

**Lexico Accepted and Transmitted Illegal and/or Suspicious Call Traffic from Upstream Providers while Lexico had a Missing/Deficient RMD Filing:** Although Lexico is not listed in the FCC’s RMD, since January 2025, Lexico has been accepting and transmitting recurrent high-volume illegal and/or suspicious robocalls on or to the U.S. telephone network directly from the following voice service providers:

- Ariyan Khan<sup>17</sup>
- Dave Scott
- global voip
- Invoketel
- Mokrina
- Next G Global
- Nova Dialer LLC
- RANO BPO Ltd
- Robust VoIP
- Teletype
- Telonate Limited
- voip tech house
- Voip2Internet
- Worldcall Telecom SRL

Call traffic data from the ITG shows that the high-volume illegal and/or suspicious robocalling campaigns concerned Amazon and other brand imposters, English/Spanish financial impersonation scams, Publishers Clearing House scams, and “authorized order” scams. Lexico accepted and transmitted this call traffic—which reached U.S. consumers and, presumably, generated revenue for Lexico—without Lexico having filed either a certification or robocall mitigation plan in the FCC’s RMD in contravention of the FCC’s mandates.

---

suspected illegal and suspicious robocalls. In December 2019, Congress enacted the Pallone–Thune Telephone Robocall Abuse Criminal Enforcement and Deterrence Act (“TRACED Act”) to combat the scourge of unlawful robocalls. *See* Pub. L. No. 116-105, § 13(d), 133 Stat. 3274 (2019). Following its enactment, the Federal Communications Commission designated the ITG as the official private-led traceback consortium charged with leading the voice communications industry’s efforts to trace the origin of suspected illegal robocalls through various communications networks. *See* 47 C.F.R. § 64.1203.

<sup>17</sup> This voice service provider has also been issued a Notice Letter from the Task Force on this date. A copy of that Notice is available here: <https://ncdoj.gov/protecting-consumers/telephones-telemarketing/fighting-robocalls/warning-notices/>.

**Downstream Providers Accepted and Transmitted Call Traffic Directly from Lexico Despite its Missing/Deficient RMD Filing:** Although Lexico is not listed in the FCC’s RMD, since January 2025, Lexico transmitted the same recurrent high-volume illegal and/or suspicious robocalls described above on or to the U.S. telephone network through the following providers that directly accepted Lexico’s call traffic:

- 42COM Telecommunication Gmbh
- ASAL Comunicaciones SA DE CV
- Aurora Trade LLC
- Bezeq International Ltd
- Business Telecommunications Services/BTS
- Datora France Communications SAS
- Deutsche Telekom / DTAG / Telekom Deutschland GmbH
- Dexatel OU
- EZ Phone BV
- GLM Telecom SRL
- GRIFINUM S.R.O.
- NGN Latam / Datora
- ONITELECOM Infocomunicações SA
- PCCW Global, Inc. / Gateway Global Communications Ltd
- PLDT (HK) Limited
- Revaltex Group
- Telecall Telecommunications Corp. dba Telecall
- Telecom Italia Sparkle S.p.A.
- TELEFONICA USA, INC. (US)
- Telekom Slovenije
- TI Sparkle North America, Inc.
- TRIAR COMMERCE LLC
- Viatel Ireland Limited

In other words, each of these providers accepted and transmitted high-volume illegal and/or suspicious call traffic from Lexico—which traffic reached U.S. consumers and, presumably, generated revenue for the providers listed—without Lexico having filed either a certification or robocall mitigation plan in the FCC’s RMD in contravention of the FCC’s mandates.

**Lexico Failed to Respond to Traceback Notices for Illegal and/or Suspicious Call Traffic:** Call traffic data from the ITG shows that, between March 2020 and September 2022, Lexico did not respond to at least 195 traceback notices for calls it originated and/or transmitted on or to the U.S. telephone network. These notices from the ITG cited recurrent high-volume illegal and/or suspicious robocalling campaigns concerning Amazon/Apple imposters, SSA government imposters, tax relief scams, utility disconnect scams, credit card interest rate reduction scams, tech support scams, and others, with Lexico identified as the last traceable hop for each traced call.

The following providers accepted and transmitted this illegal and/or suspicious call traffic directly from Lexico on or to the U.S. telephone network:

- 42COM Telecommunication Gmbh
- AlkaIP Telecom LLC
- AMS System sp. z o.o.
- Ariatel
- Atlantel Telecom (International)
- Axistel
- Broadband Telecom Inc.
- Carrier Italia S.R.L.
- CETIN A.S.
- Computertel, Inc. / Talktel Directo
- EZ Phone BV
- GABS Telecom
- GM Telecom
- HANSA TELECOM SIA
- KOL
- Liberia Telecom Corp (Libtelco)
- Modulus S.A.
- NGN CORP
- NGN Latam / Datora
- Novatel d.o.o.
- NTC International, Inc. / Nobel Globe SRL
- Opextel, LLC
- OXNP Telecom Limited
- Plusnet GmbH
- Quickcom Telecom Limited
- Rovex Telecom Limited / ROVEX LIMITED
- Setion Limited
- Smartbiz Telecom, LLC
- SMS Consortium LLC / SMS Telecomm LLC
- Startel International LLC
- SVM Telecom LP
- Tata Communications (America) Inc.
- TWT S.p.A.
- WIC (Worldcom International Communications)

Because of Lexico's refusal to participate in the traceback process and its identification as the de facto last hop in the call path for these tracebacks, in addition to Lexico's failure to respond to traceback requests in contravention of the FCC's mandates, the Task Force is concerned about whether Lexico was, in fact, originating these illegal and/or suspicious calls.

**Lexico Accepted and Transmitted Call Traffic Directly from Providers that Failed to Respond to Traceback Notices for Illegal and/or Suspicious Call Traffic:** Since October 2022, Lexico has been identified in at least 233 tracebacks as the immediate downstream to a non-responsive voice service provider for calls transmitted on or to the U.S. telephone network. These notices from the ITG cited recurrent high-volume illegal and/or suspicious robocalling campaigns concerning Amazon and other brand imposters, English/Spanish financial impersonation scams, Publishers Clearing House scams, “authorized order” scams, utility impersonation/disconnect scams, Chinese consulate scams, and others.

Since January 2025, Lexico has been identified in at least 77 tracebacks as the immediate downstream to the following providers that did not respond to traceback notices for calls they originated and/or transmitted on or to the U.S. telephone network:

- Ariyan Khan<sup>18</sup>
- Dave Scott
- global voip
- Invoketel
- Mokrina
- Next G Global
- Nova Dialer LLC
- RANO BPO Ltd
- Robust VoIP
- Teletype
- Telonate Limited
- voip tech house
- Voip2Internet

In other words, Lexico accepted and transmitted high-volume illegal and/or suspicious call traffic—which has reached U.S. consumers and, presumably, generated revenue for Lexico—from providers that have failed to respond to traceback requests in contravention of the FCC’s mandates.

Moreover, because the ITG estimates that each traced call is representative of a large volume of similar illegal and/or suspicious calls,<sup>19</sup> Lexico is likely causing and/or facilitating significant volumes of illegal and/or suspicious robocalls to ultimately reach U.S. consumers,

---

<sup>18</sup> This voice service provider has also been issued a Notice Letter from the Task Force on this date. A copy of that Notice is available here: <https://ncdoj.gov/protecting-consumers/telephones-telemarketing/fighting-robocalls/warning-notices/>.

<sup>19</sup> USTelecom, *Industry Traceback Group Policies and Procedures*, at 4 (last revised April 2022) (*ITG Policies & Procedures*) (defining “campaign” as “[a] group of calls with identical or nearly identical messaging as determined by the content and calling patterns of the caller,” where “[a] single Campaign often represents hundreds of thousands or millions of calls”), *available at* <https://r01986.a2cdn1.secureserver.net/wp-content/uploads/2022/04/ITG-Policies-and-Procedures-Updated-Apr-2022.pdf>.

which calls are transmitted by providers—including Lexico—that are operating in contravention of the FCC’s mandates.

### **Requested Action in Response to this Notice**

When Lexico persists in any of the following conduct—(1) originating and/or transmitting calls while it fails to comply with its obligation to file a certification and robocall mitigation plan in the FCC’s RMD; (2) accepting and transmitting calls from voice service providers that fail to comply with their obligations to file a certification and robocall mitigation plan in the RMD; (3) originating and/or transmitting calls without being responsive to traceback requests; and/or (4) accepting and transmitting calls from providers that fail to respond to traceback requests—Lexico demonstrates its lack of commitment to the integrity of the ecosystem, and signals to its counterparts in industry—and to law enforcement—that Lexico is not prioritizing compliance with rules and regulations.

For these reasons, the Task Force requests that you review this Notice and provide us with a response within 21 days of the issuance of this Notice detailing how Lexico intends to address the concerns identified herein.

As a matter of courtesy, we informed several of our federal law enforcement counterparts—including our colleagues at the FCC’s Enforcement Bureau<sup>20</sup>—of the Task Force’s intention to issue this Notice.

---

<sup>20</sup> The FCC’s authorities are broad and may allow for several potential enforcement actions, including a Cease-and-Desist Letter, *see, e.g., FCC Orders Avid Telecom to Cease and Desist Robocalls* <https://www.fcc.gov/document/fcc-orders-avid-telecom-cease-and-desist-robocalls> (issued Jun. 7, 2023); *FCC Issues Robocall Cease-and-Desist Letter to PZ/Illum*, <https://www.fcc.gov/document/fcc-issues-robocall-cease-and-desist-letter-pzillum> (issued Oct. 21, 2021), a K4 Public Notice, *see FCC Enforcement Bureau Notifies All U.S.-Based Providers of Rules Permitting Them to Block Robocalls Transmitting From One Eye LLC*, <https://www.fcc.gov/document/fcc-takes-repeat-robocall-offenders-attempts-evade-enforcement> (issued Feb. 15, 2023), a Notice of Apparent Liability, *see, e.g., John C. Spiller; Jakob A. Mears; Rising Eagle Capital Group LLC; JSquared Telecom LLC; Only Web Leads LLC; Rising Phoenix Group; Rising Phoenix Holdings; RPG Leads; and Rising Eagle Capital Group – Cayman*, Notice of Apparent Liability for Forfeiture, 35 FCC Rcd 5948 (2020), available at [https://docs.fcc.gov/public/attachments/FCC-20-74A1\\_Rcd.pdf](https://docs.fcc.gov/public/attachments/FCC-20-74A1_Rcd.pdf), a Consumer Communications Information Services Threat (“C-CIST”) Designation Notice, *see FCC [Enforcement Bureau] Issues C-CIST Classification for “Royal Tiger”*, <https://www.fcc.gov/document/fcc-cb-issues-c-cist-classification-royal-tiger> (issued May 13, 2024), or proceedings that may result in removal from the Robocall Mitigation Database, *see, e.g., Viettel Business Solutions Company, Etihad Etisalat (Mobily), Claude ICT Poland Sp. z o. o. dba TeleCube.PL, Nervill LTD, Textodog Inc. dba Textodog and Textodog Software Inc., Phone GS, Computer Integrated Solutions dba CIS IT & Engineering, Datacom Specialists, Domainersuite, Inc., Evernex SMC PVT LTD, Humbolt Voip, and My Taxi Ride Inc.*, Removal Order, 39 FCC Rcd 1319 (2024), available at <https://www.fcc.gov/document/fcc-removes-12-entities-robocall-mitigation-database>, the latter of

Additionally, while the Task Force will send electronic copies of this Notice to the email addresses of record for the downstream providers mentioned herein, the Task Force encourages Lexico to share a copy of this Notice with each of its downstream provider customers. A copy of this Notice will also be publicly accessible at <https://ncdoj.gov/protecting-consumers/telephones-telemarketing/fighting-robocalls/warning-notices/>.

Finally, this Notice does not waive or otherwise preclude the Task Force from bringing an enforcement action related to conduct preceding the date of this Notice, including conduct that resulted in violations related to the call traffic and conduct referenced in this Notice.

The Task Force remains steadfast in its resolve to meaningfully curb illegal robocall traffic. Please direct any inquiries regarding this Notice to my attention at [tnayer@ncdoj.gov](mailto:tnayer@ncdoj.gov).

Sincerely,

---

Tracy Nayer  
Special Deputy Attorney General  
Consumer Protection Division  
North Carolina Department of Justice

---

which—if completed—would require all intermediate providers and terminating voice service providers to cease accepting your call traffic.
